In response to applicant's amendment dated August 26, 2009. The following action is taken:

The claims are rejected for the same reasons set forth in the previous office action repeated herein.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 8, 9, 15 and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by JP 2254677.

The examiner is relaying an oral English translation of the Japanese document. A full English translation was requested and would be provided upon request by applicant.

The claims are rejected by relaying on the English abstract. The claims are drawn to an alternative limitation "or" where in only one of the limitation is needed to be shown in the reference to meet the claimed invention. The reference discloses a data format recording operation on a medium, wherein a format command is received to be written on the medium characterized in that if an error occurs during the data writing (empty data blocks) then the reference discloses two options: either to ignoring it or not meeting the broad claims.

With respect to the limitations of claims 2 and 9. The reference discloses that the error is ignored then proceeds to other operations by not reporting the error.

Claims 3-7 and 10-14 are allowed.

Applicant's arguments filed August 26, 2009 have been fully considered but they are not persuasive. Applicant's argument with respect to the prior art not showing "unused information" is present within the process of formatting a medium. It is well established in the art that a formatting process is accomplished on a medium with unused data blocks. Thus the limitation "unused information" correspond to a formatting process on a disk with no user data.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication should be directed to NABIL Z. HINDI at telephone number (571) 272-7618.
